

Brighter Futures

Use this worksheet to help you construct a research project and/or interview with someone in your network or local community who inspires you.

What makes someone inspiring?

Based on the ideas you have explored, can you find someone in your network or local community who inspires you?

Create a presentation based on your research to explain why they inspire you. You can use any media you feel comfortable with including PowerPoint, Word, Video etc.

Or arrange to interview your chosen person and either record or write up your interview so that you can share the inspiration with your peers.

Think about their career pathway
What obstacles or barriers have they encountered?
How have they overcome them?
What are their inspirations?
Why do you find them inspiring?
Where did they study?
What did they study?
Did they always want the job that they do now?
What advice can they offer?
